Three Days National Level Webinar

on

National Education Policy 2020:

Reflection on School Education, Teacher Education and Higher Education

Date-17th November to 19th November, 2020

ABOUT PROGRAMME

NATIONAL EDUCATION
POLICY 2020

The National Education Policy 2020 aims to address the many growing developmental imperatives of this country. This Policy proposes the revise and revamp various aspects of the educational structure with a view to creating a new system that is aligned with the inspirational goals of 21st century education, while remaining consistent with India's traditions and value systems. The National Education Policy lays particular emphasis

on the development of the creative potential of each individual. It is based on the principle that education must develop not only cognitive skills - both 'foundational skills' of literacy and numeracy and 'higher-order' cognitive skills such as critical thinking and problem solving - but also social and emotional skills - also referred to as 'soft skills' - including cultural awareness and empathy, perseverance and grit, teamwork, leadership, communication, among others.

The aim must be for India to have an education system that ensures equitable access to the highest-quality education for all learners regardless of social and economic background. To achieve this, actions must be initiated with a view to highlighting and deliberating different aspects of the NEP a National Level Webinar is organized for 'Reflection on School Education, Teacher education and Higher Education' from 17th November to 19th November, 2020 from 11:00 AM to 01:00 PM to create awareness amongst teachers, students, officials and other stakeholders in the higher education system.
