Our college recently organized an E-Waste Management Program to spread awareness about the responsible disposal and recycling of electronic waste. The event was held on **29-05-2024** at **RAJENDRA ACADEMY FOR TEACHERS' EDUCATION** in collaboration with **HULLADEK RECYCLING**. This initiative formalized through a **MEMORANDUM OF UNDERSTANDING (MOU)**. This event was attended by students, faculty members, and environmental enthusiasts. It was conducted under the initiative of every department with the aim of educating participants on the environmental hazards posed by improper e-waste disposal and the need for sustainable waste management practices.

The program began with an enlightening session by Mr. **NANDAN MALL** who explained the adverse effects of e-waste on the environment and human health. They emphasized the importance of recycling and reusing electronic components instead of discarding them carelessly. A significant highlight of the event was the E-Waste Collection Drive, where students and staff actively participated by donating old and unused electronic devices, which were later sent for proper recycling. Additionally, a live demonstration showcased the e-waste recycling process, helping attendees understand how discarded gadgets can be effectively managed to reduce pollution and conserve natural resources.

The program concluded with an interactive session where participants discussed innovative ways to minimize e-waste in daily life. Overall, the initiative was a great success, fostering a sense of environmental responsibility among students and promoting sustainable waste management practices. Through such initiatives, our college continues to contribute towards a cleaner and greener future.
